

There is no higher priority at the Groppetti Automotive Family than the safety of our customers, employees and community. We want you to feel confident when visiting a Groppetti Automotive Family Dealership. As a result, we have implemented cleaning procedures in the interest of our customers' and employees' health and safety.

- Areas cleaned include the showroom, customer lounge and amenity area, every office and work desk area, restrooms, breakrooms and meeting rooms.
- After these areas have been thoroughly cleaned, we are applying disinfectant cleaners to all touch points throughout our Dealerships.
- High traffic areas are cleaned with disinfectant at least twice per day.
- We have implemented a handling & cleaning process to ensure your vehicle is being properly cared for and cleaned while in for maintenance and/or repair.
- We have asked our staff to stay at home if they have a cold, fever or cough of any kind, or if they believe they may have been exposed to the virus.
- We also ask our customers to stay home if they have a cold, fever, or cough of any kind, or if they believe that they may have been exposed to the virus.
- We will practice and encourage our customers to practice social distancing while at the Dealership.
- We have asked our staff to practice good hygiene practices, in particular to wash their hand with warm water and soap on a regular basis and to assure that all coughs and sneezes are screen from others in the appropriate manner.

We continue to monitor the situation and do all we can to protect our customers and our employees. Thank you for your patience and trust in the Groppetti Automotive Family.
